

VIDEO CONFERENCE MINUTES - 30/06/2008

A videoconference, coordinated by the “Poliforme” project leader: *Campania Region Local Police Training School*, between all project partners took place on Monday 30th June 2008 at 11.00 am, at the headquarters of Dases - University of Sannio – Benevento, Italy.

In connection from their central offices were: the representative of the *Centro de Investigacion para el Desarrollo of Cartagena* in Spain, the representative of the *Mykolo Romerio University of Vilnius* in Lithuania, the representative of the *Turkish of Police - Department of Public Order - Internal Ministry* in Turkey and the representative of the European Forum for Urban safety – FESU in France.

Professor Vespasian Francesco of the “Dases” introduced the video conference and provided in illustrating the activities so far undertaken by the university he represented. The “Dases” had drafted an initial report based on the individual reports made available by the project partners, although it was noted that some questionnaires were still incomplete, hence an invitation to urgently integrate all missing data was made.

Meanwhile, the “Dases” will proceed in delivering to all partners a proposal defining the profile of skills of the Proximity policeman and a draft of the training course. The partners will have 15 days to make known their own views, so that it will be then possible to move on to implementing the distance learning course.

In occasion of the video conference, after in depth discussion, the mutual agreement was reached that the Second transnational Conference, unlike what was previously agreed upon, would now be held in September in France.

In such occasion, the Proximity Police operator profile will be presented together with the training contents to be implemented in a distance learning course.

It is also agreed that each partner country will experiment the training course on five proximity police operators and present the relevant results in occasion of the final Conference in Turkey.

The Campania Regional Local Police Training School is committed to rapidly transmit all information relevant to timing and content of the following project work phase.

The video conference ends at 13.000
